

COMMUNITY SERVICE ORGANIZATIONS AND WEBSITES

The following is a directory of community service organizations that York students have worked with in the past. This is not intended to be a comprehensive list of service-based organizations. The presence of a service organization on this list does not indicate or imply York's support of the organization. Students and parents should investigate all service organizations to ensure they are in agreement with the mission and philosophy of that organization as well as the terms of service.

ORGANIZATION

WEBSITES
